England's most beautiful county attracts people and businesses looking for the optimum balance of future opportunity, stunning environment and exceptional lifestyle. Invest Somerset provides a seamless one-stop shop approach to facilitate more jobs and investment by working closely with potential new and existing businesses.

Healthcare and Medical Technologies

The growth in healthcare and medical technologies across the South West region is driving innovation in Somerset and transforming health outcomes and well-being for local people.

New £87m surgical centre at Musgrove Park Hospital, Taunton.

Somerset has a great reputation of outstanding quality of life, so it's only natural that there is a priority on healthcare and wellness here. New investments in health facilities and pioneering collaborations between providers and local companies makes Somerset an ideal place for growing businesses with life-changing products and services.

NHS Somerset is responsible for commissioning health and care services for more than half a million residents and plays a pivotal role in bringing organisations together to work as one integrated care system known as 'Our Somerset'. New investments in local health facilities include the £87 million state-of-the-art surgical centre at Musgrove Park Hospital.

Innovative health tech pioneers in the county include Taunton-based Predictive Health Intelligence (PHI), a local success story that has developed a computer system that scans existing blood test results to analyse long term trends that could show a higher risk of developing liver disease.

Local colleges and universities ensure a great pipeline of future talent supports businesses based in Somerset. In 2023, Bridgwater & Taunton College was awarded the prestigious Queen's Anniversary Prize in recognition of the pioneering nursing degree programmes delivered by University Centre Somerset. Yeovil College has entry-level courses in the health professions such as paramedic science, physiotherapy, occupational therapy, nursing or midwifery.
